2.4.2 New message 23

2.5 Payment Method 24

2.5.1 Choose a payment method and confirm order 24

2.5.2 Choose a shipping address 24

1. Introduction

We will implement a functional testing strategy to test our main functions.

1.1 Purpose

This Test Plan will serve as a blueprint to verify the current features and functionality of Zapato.

1.2 Scope

We are testing the Zapato on mobile phones running Android 7.0 with at least 2GB of RAM.

The Test Plan will cover functions related to:

1. User Profile
2. Product Browsing
3. Peer to peer interaction
4. System settings
5. Payments

2. Test Cases

2.1 My profile & settings

2.1.1 Go to my profile

Title	Go to My Profile (Refer to by Test case ID: MP1)
Description	Test path of getting to <i>My Profile</i> screen
Preconditions/ Assumptions	User has a Zapato account, is logged in, and is Product Browsing
Test Steps	<ol style="list-style-type: none">1. Hold the floating Home button at the bottom left<ol style="list-style-type: none">a. A quarter-wheel menu will pop up, which includes an option for "My Profile" (shown as a silhouette)2. While keeping finger held on the screen, drag to the My Profile button<ol style="list-style-type: none">a. A highlight will show around the My Profile button, to show that it is the selected option3. Lift your finger from the screen once you see the highlighted button<ol style="list-style-type: none">a. The <i>My Profile</i> page will be displayed, with its name at the top4. User is now at the My Profile screen
Expected Result	User is in the <i>My Profile</i> screen

2.1.2 Login

Title	Login from Start Screen (correct information)
Description	User successfully logs into a registered Zapato account.
Preconditions/ Assumptions	User has a Zapato account, is not logged in yet, and is at the Start Screen.

Title	Change Password
Description	Enable current user to change password.
Preconditions	User is logged in and at the Main Screen.
Test Steps	<ol style="list-style-type: none">1. Complete Test Case MP1<ol style="list-style-type: none">a. User is at "My Profile" page2. Scroll down to where it says "Change Password", select that option<ol style="list-style-type: none">a. Takes User into new "Reset Password" page. Displays text box for inputting Current Password, New Password, and "Verify new password"3. Enter the current password, new password, and new password again to verify<ol style="list-style-type: none">a. All passwords will appear "hidden"4. Click the checkmark button to confirm your change.<ol style="list-style-type: none">a. Message will appear "New password set", and User will be taken back to <i>My Profile</i> page
Expected Result	User has changed their password successfully

2.1.5 Update name

Title	Update Name
Description	Change first or last name associated with the account
Preconditions	User is logged in and at Main Screen
Test Steps	<ol style="list-style-type: none">1. Complete Test Case MP1<ol style="list-style-type: none">a. User is at "My Profile" page2. Click the "Edit Profile" button<ol style="list-style-type: none">a. Goes into an <i>Edit Mode</i> with user full name, and other information open to new input3. Click on "Name" text field.<ol style="list-style-type: none">a. Cursor should know be to the right of user name4. delete current name, and type in new name.<ol style="list-style-type: none">a. New name should show, but not save yet/5. Select "Save"<ol style="list-style-type: none">a. User taken back to <i>My Profile</i>
Expected Result	User now has a new Full Name. NOT username.

2.1.6 Update delivery address

Title	Update Delivery Address
Description	Change the delivery address associated with the account.
Preconditions	User is in Main Screen.
Test Steps	<ol style="list-style-type: none">1. Complete Test Case MP1<ol style="list-style-type: none">a. User is at "My Profile" page2. Click "Edit Profile"<ol style="list-style-type: none">a. On screen contents become editable3. Click "Change Address"<ol style="list-style-type: none">a. Address contents are highlighted4. Enter new address<ol style="list-style-type: none">a. New address is highlighted5. Click "Save Changes"<ol style="list-style-type: none">a. Profile contents are saved and not editable.
Expected Result	The user is taken back to the "Profile" Screen and the address associated with the account is changed.

2.1.7 Update email

Title	Update Email
Description	Enable user to change current email address.
Preconditions	User is in the Main Screen
Test Steps	<ol style="list-style-type: none">1. Complete Test Case MP1<ol style="list-style-type: none">a. User is at "My Profile" page2. Click "Edit Profile"<ol style="list-style-type: none">a. On screen contents become editable3. Select "Change Email Address"4. Enter new Email address.5. Save changes.
Expected Result	User's email address is updated.

2.1.8 Verify email

Title	Update Email
Description	Enable user to change current email address.
Preconditions	User is in the Main Screen
Test Steps	<ol style="list-style-type: none">1. Complete Test Case MP1<ol style="list-style-type: none">a. User is at "My Profile" page2. Click "Edit Profile"<ol style="list-style-type: none">a. On screen contents become editable3. Select "Change Email Address"4. Enter new Email address.5. Save changes.
Expected Result	User's email address is updated.

2.1.9 Verify selling list

Title	View Sell Listing
Description	Switch screen to view list of all products User is selling.
Preconditions	User is in Main Screen and is logged in.
Test Steps	<ol style="list-style-type: none">1. Complete Test Case MP1<ol style="list-style-type: none">a. User is at "My Profile" page2. Click Listing icon3. Click "Sell List"
Expected Result	User sees his/her/their sell listing

2.1.10 Remove sell listing

Title	Remove Sell Listing
Description	Suspend or take product put up to sell.
Preconditions	User is logged in and in seller listing page.
Test Steps	<ol style="list-style-type: none">1. Click "edit" product2. Click "remove" or "suspend"
Expected Result	Product should not be in buyer's item inventory

2.1.11 Create sell listing

Title	Create Sell Listing
Description	User create a sell listing of their product for sale.
Preconditions	User is in Main Screen and is logged in.
Test Steps	<ol style="list-style-type: none">1. Complete Test Case MP1<ol style="list-style-type: none">a. User is at "My Profile" page2. Click Listing icon3. Click Sell List4. Click Add Listing icon5. Input product information6. Select "sell now" or "bid"7. Input Paypal account8. Click "Submit"
Expected Result	The user is returned to their Profile Screen, a new product is added to the app product listing and to the user sell listing.

2.1.12 View favorite list

Title	View Favorite List
Description	User switch screen to view all favorite items
Preconditions	User is logged in, and user is in Main Screen
Test Steps	<ol style="list-style-type: none">1. Complete Test Case MP1<ol style="list-style-type: none">a. User is at "My Profile" page2. Click Listing icon3. Click Favorites List
Expected Result	The user will be taken to the Favorite List Screen, and view a list of item that user add to the Favorite.

2.1.13 Remove favorites

Title	Remove Favorites
Description	User remove a item from their Favorite List
Preconditions	User is logged in, and user is in main screen and has item in the Favorite List
Test Steps	<ol style="list-style-type: none">1. Complete Test Case MP1<ol style="list-style-type: none">a. User is at "My Profile" page2. Click Listing3. Click Favorites4. Click Remove5. Click Product to remove6. Confirmation prompt appears7. Click Yes to confirm removal
Expected Result	The user will be taken to the Favorite List screen, and the item that user remove will not show in the Favorite List

2.1.14 Enable message notifications

Title	Enable Message Notification
Description	Change notification settings to turn on message notifications.
Preconditions	User is in Main Screen, is logged on, and has message notification disabled.
Test Steps	<ol style="list-style-type: none">1. Click Settings2. Click Notifications3. Click "Enable"
Expected Result	The user is returned to the Settings Screen, and message notification is enabled.

2.1.15 Disable message notifications

Title	Disable Message Notification
Description	Change notification setting to turn off message notification
Preconditions	User is in Main Screen
Test Steps	<ol style="list-style-type: none">1. 1. Click Settings2. 2. Click Notifications3. 3. Slide Message Notifications from On to Off
